301ST FIGHTER WING

Vol. 34, No. 7

ONE AIR FORCE, SAME FIGHT ... AN UNRIVALED WINGMAN

July 12, 2008

NEWS BRIEFS

Base BK schedules new, longer hours

The local Burger King is now open Monday to Saturday from 6 a.m. to 6 p.m. and on Sundays from 10 a.m. to 5 p.m. This is for a 90-day trial period to determine feasibility.

Benefits take on change Airmen must address

Because of the changes (see story on page 1), Air Force Personnel Center recommends every Airman go in to vMPF after July 1 and review their vRED. Once the vRED is reviewed, you will need to submit the vRED to AFPC, even if there are no changes, to change the vRED date and show your vRED reflects the proper beneficiaries.

Luncheon set for AFSA president

Air Force Sergeant Association International President Doc McCauslin will speak at Chapter 1055's general meeting luncheon, 17 July 17, at 11:30 a.m., Desert Storm Conference Center, food is catered by Arizola's Mexican Restaurant - \$10 per person.

Remember...

The 301st Fighter Wing "B" UTA is July 19-20.

Tip of the spire

A four-ship formation fly-over of F-16s from the Air Force Reserve's 457th Fighter Squadron are part of the ceremonies during the Air Force Reserve Command's Change of Command Tuesday, June 24, 2008, at the Air Force Memorial in Washington D.C., where Lt. Gen. Charles E. Stenner, Chief of Air Force Reserve and Commander Air Force Reserve Command, assumed command from Lt. Gen. John A. Bradley. (U.S. Air Force Photo/Tami Coon)

Policy change on designating beneficiaries for death gratuity benefits

Chief Master Sgt. Rich Ernst Military Personnel Flight

As of July 1, Airmen are now able to select one or more persons of their choosing to receive death gratuity benefits. "This is a significant change to the DG benefits election option for all Airmen," said Steven Kelley, director of Air and Space Expeditionary Force Operations at the Air Force Personnel Center here.

Prior to the change in law, pay-

ments were restricted to the spouse, then children if applicable and then to a family member as elected by the Airman. It didn't allow a married Airman to leave the death gratuity to anyone else.

"Since the amount of death gratuity increased to \$100,000, payment to minor children requires guardianship over the child's estate and can be a lengthy and costly process depending upon the state in which the child resides," said Mr. Kelley. "This

change provides more flexibility to the service member in designating the gratuity benefit. "

Airmen are able to select persons to receive death benefits in increments of 10 percent. For example, an Airman will be able to choose 20 percent to a cousin, 10 percent to a friend and the remaining 70 percent to a spouse for a total of 100 percent. The

**(BENEFITS,
continues on page 8)**

Keep wing competitive for the future

Where do you see yourself in the year 2016? Will you still be a 301 FW member or will you have moved on or retired by then? What vision do you see for the future of the wing and AFRC?

Did you know the future of the 301 FW is in yours and my hands? Where we will be in 2016 has a lot to do with what we do now, how we conduct ourselves, and how we appear in 2008. Whether any of us plan to be around here in 2016, it is still important for us to take care of things now for the members of the future. We must be good caretakers of our wing to keep ourselves competitive with the rest of AFRC. Above all, we must be team players working together to make our wing strong.

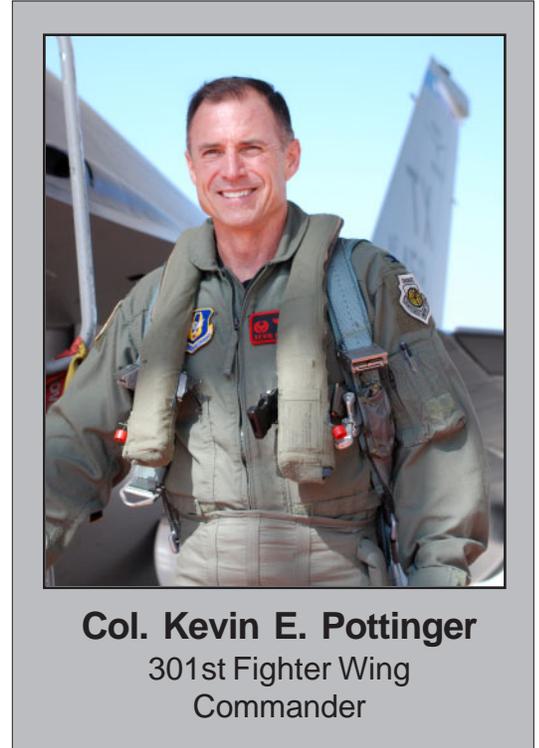

Based on current flight operations tempo, AFRC F-16s will be grounded around 2016. They will have flown 8000 hours which is their service life expectancy. A logical choice for replacing the F-16 is the F-35 Lightning (Joint Strike Fighter) which is being built by Lockheed across the runway. Since the Joint Strike Fighters are too expensive for the Air Force Reserve to purchase outright, the best means to bring them to the 301 FW is through the Active Associate Model. This model brings with it 150 active duty Airmen, primarily maintainers and a few pilots, enabling the 301 FW to perform a stand alone 120-day Aerospace Expeditionary Force.

To prepare for this Active Associate Model we must continue to execute our 301 FW mission in our usual professional manner. You can help our wing be competitive by volunteering for AEFs, seeking military and civilian

educational opportunities, and of course by maintaining and improving your fitness. Additionally, you must continue to fulfill your requirements of Individual Medical Readiness, Warrior Skills, and Ancillary training. All these areas will make you a better Airman which is so crucial to the success of the 301 FW and AFRC now and in the future.

In closing, I think this quote from Theodore Roosevelt's speech, "The Man in the Arena" sums up the importance of why we need to take care of the 301 FW now for the future. If you consider that our wing is the same as his arena, I think you will be able to see where we need to go.

It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; whose strives valiantly ... who knows great enthusiasms, the great devotions; whose spends himself in a worthy cause; who at the best knows in

Col. Kevin E. Pottinger
301st Fighter Wing
Commander

the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who neither know victory nor defeat.

Happy Independence Day!

FIGHTER LINE

Fighter Line is an Air Force Reserve funded publication for members of the U.S. military services.

Contents of the Fighter Line are not necessarily the official view of, or endorsed by, the U.S. Government, the Department of Defense or the Department of the Air Force.

Editorial content is edited, prepared and provided by the 301st Fighter Wing public affairs office, NAS Fort Worth JRB Carswell Field, Texas. All photographs in the Fighter Line are Air Force

photographs unless otherwise indicated.

Deadline for unsolicited submissions is close of business Monday after the "A" schedule unit training assembly.

Articles should be typed, single-spaced, and, if possible, submitted via email to the public affairs office at 301fw.pa@carswell.af.mil.

AFRC Human Resource Development Council

Maximize your career as an Airman at 301st FW's first HRDC career workshop

Tech. Sgt. Kristin Mack

Public Affairs

Mark your calendars. The 301st Fighter Wing Human Resources Development Council will hold their premier HRDC career workshop during this September's "B" Unit Training Assembly. This workshop, open to all 301st members including officer, enlisted and civilians, will cover a myriad of topics the council focuses on during their quarterly meetings, such as career and personal development.

"This will give wing members the chance to hear from subject matter experts in areas of work force retention, fitness and health, with an emphasis on career development," said Colonel Bob

Mortensen, 301st Fighter Wing vice commander and HRDC council chairman. "The goal of this presentation is to provide our members with the tools they can use to succeed."

The program will kick-off Saturday, Sept. 20, 2008, with a welcome from a 10th Air Force guest speaker, then continues with an introduction of the topics to be addressed and an icebreaker later that day. Speakers, who are experts in their specific area, will cover each topic. Required dress is uniform of the day, BDUs/ABUs/flight suits. Scheduling and lodging should be coordinated with your unit. For more information, call Master Sgt. Shon Saye at 817.782.6965.

To sign up, visit the 301st FW Homepage/HRDC site at https://wwwmil.301fw.afrc.af.mil/Wing_Agencies/HRDC/index.htm.

Maximize your career as an Airman!

Reserve recognized for outstanding work

Tech. Sgt. Stephen Bailey

Public Affairs

The 301st Fighter Wing Civil Engineer Squadron made their mark in a Silver Flag Exercise May 24 at Tyndall Air Force Base, Fla., in which they reconstructed a bare base deployment area, as well as completing their annual tour training requirement.

More than 37 301st Civil Engineer Squadron team members and officers completed the week-long exercise which combined active duty, guard and reserve to help complete the mission.

The Silver Flag exercise site is home to the 823rd RED HORSE Squadron. The squadron's 68-person CADRE provides combat support training to active-duty units, the Air National Guard, Air Force Reserve Command, Army, Marine Corps and allied nations. More than 5,600 people are trained each year at the site.

"Civil engineers must complete this training every three years; it's vital to enhancing our skills whether needed at home-station or abroad," said Senior Master Sgt. Bob Gilligan, 301st CES team leader.

He went on to explain how the exercise prepares the group to fulfill their mission by going into a bare base deployment area and provide the needed organization to execute the required military objective.

"During the exercise, we were given specific wartime scenarios filled with attacks and chemical warfare situations. Our job is to literally hit the ground running putting together required power supply, water and electrical services, doing site surveys to provide the needed resources at the required times, and supply needed assistance to runway damage control making sure the flying mission can be accomplished," Sergeant Gilligan said.

During the five and a half-day primary course, civil engineer, services, and Personnel Support for Contingency Operations (PERSCO) personnel learn how to build and maintain bare-base operations at forward-deployed locations. Military members from all the armed services learn to work together to make sure the mission is completed. Course instructors work within the wing operations center providing students with real-world scenarios to see

how they hold under pressure.

More than 97 students were involved in the recent exercise and according to Sergeant Gilligan this time provided great opportunities in sharing experiences. "You had people who had done these activities for many years – a wealth of experience teaching new people in the career field including the officers."

Many people had book knowledge as to how to get things done, but it's a much different situation when you're out in the field and that's where the experience pays off – we all received the chance to learn valuable information, which in a wartime event will pay huge dividends."

While at Tyndall, students hone a variety of combat and survival skills, such as repairing bomb-damaged runways, setting up base facilities and disposing of explosive ordnance. Over the years, training has expanded to its current program, which includes force beddown, advanced base recovery after attack, disaster preparedness, fire protection, explosive ordnance disposal, food service and lodging skills, chemical warfare operations and personnel accountability.

"I'm so proud of our guys and was literally blown away with their professionalism and dedication out in the field. Their hard work and determination made me so proud to be a part of this civil engineer team," said Master Sgt. Chris Bottoms, 301st CES first sergeant. "These guys are the best!"

Noted for their outstanding work was Tech. Sgt. Mike Mitchell who did an outstanding job with his team and provided good training for those involved. But it was Master Sgt. Richard Nimitz and his team who were recognized by the instructors as an outstanding group.

According to Sergeant Gilligan, this was the first time Silver Flag has ever recognized a group for their outstanding work and that honor went to the 301st CES.

According to those involved, this was more than an annual training requirement, it's the CE mission and, it's what they do.

Air Force Falcons with Force

Stenner takes reins of AF Reserve Command

**Senior Master Sgt.
Matt Proietti**

Secretary of the Air Force
Public Affairs

WASHINGTON — Lt. Gen. Charles E. Stenner assumed command of the Air Force Reserve and its 68,000 members today in a ceremony at the Air Force Memorial here.

He succeeds Lt. Gen. John A. Bradley, who held the post since 2004.

"I'm excited to lead the finest group of warriors I have ever known," said General Stenner. "These are Airmen who have to maintain a balance with their family, their military commitments, their civilian career and their community."

The ceremony was held at the base of three stainless steel spires that dominate the memorial, which overlooks the Pentagon and offers a view of other Washington landmarks.

Air Force Vice Chief of Staff Gen. Duncan McNabb officiated and said the command is getting a "remarkable leader" in General Stenner.

"Command is not a new role for (him)," said General McNabb. "It is what he was made for, and what he loves doing. He knows where we are going as an Air Force and he understands where the Air Force Reserve fits as an integral part of the Total Force."

General Stenner assumes a dual role which requires him to divide his time between serving as chief of the Air Force Reserve in Washington while also being head of the Air Force Reserve Command at Robins AFB, Ga.

He has been assistant deputy chief of staff for strategic plans and programs at the Pentagon for two years. Before that he served as director of operations at command head-

quarters and director of plans and programs there before transferring to Washington. He has commanded four operations groups and two fighter wings.

General Stenner is a command pilot with more than 3,500 flying hours in the F-4 Phantom, A-10 Thunderbolt and F-16 Fighting Falcon.

Speaking Monday at the Pentagon, General Stenner said his immediate goal is to keep the Air Force Reserve on a steady course as it works with its active-duty and Air National Guard partners.

"The Air Force has some very, very good objectives for the way ahead (in) winning the war on terror, taking care of our people and recapitalizing this Air Force to include the Air Force Reserve," he said. "Our reserve warriors are going to continue in their assigned duties. They've been doing it exceptionally well and I expect that to continue."

General McNabb said General Stenner takes command of the Reserve at a time when the Air Force "is engaged in a battle of good over evil, hope over despair, light over darkness and freedom over tyranny."

"(We) are our nation's sword and shield ... and we will go to the most dangerous place on the planet ... tonight ... to defend freedom and protect America," he said. "The line between regular and reserve forces is indistinguishable, and we are the benchmark service for the joint team on how to integrate the right way."

General Stenner acknowledged sacrifices made by his family and those of all reservists, ending his comments with a simple statement to those in uniform.

"Now let's go to work," he said.

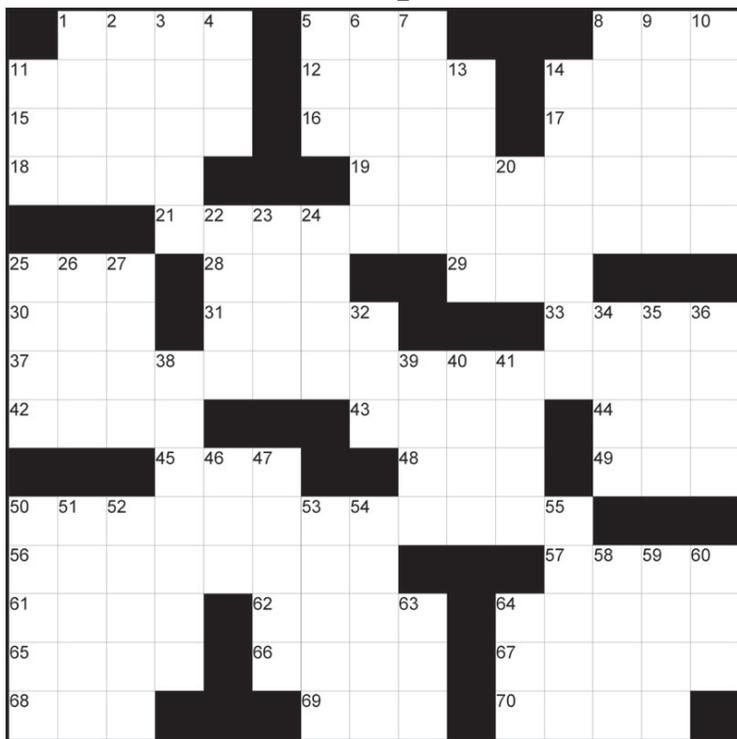

WASHINGTON — Lt. Gen. Charles E. Stenner, Jr., chief of the Air Force Reserve and commander, Air Force Reserve Command, addresses the audience after the change of command ceremony June 24, 2008, at the Air Force Memorial. General Stenner assumed command from Lt. Gen. John A. Bradley. (U.S. Air Force Photo/Senior Master Sgt. Raymond Sarracino)

death gratuity designation will no longer be restricted to a spouse, child or blood relative. To implement this change, AFPC officials have updated the vREDs of members who are married and/or have dependent children to reflect a "by law" designation on July 1. "By law" means that 100 percent of the DG payment is paid in the following order of precedence: surviving spouse, surviving children in equal amounts, descendants of any deceased children in equal amounts, executor or administrator of the service member's estate or Airman's other next of kin under the laws of domicile at the time of death.

Airmen who would like to designate a specific beneficiary or multiple beneficiaries by name must access the vMPF on or after July 1 to provide the information on their beneficiaries.

An unmarried Airman with children are now able to designate a

person of his or her choice, such as a parent or other person to receive the DG directly thus eliminating the need to be a court-appointed guardian over the minor child's estate. However, the member still has the responsibility to ensure their wishes are followed through a will or trust. Married Airmen may elect to leave less than 100 percent of the DG to the spouse. The law, however, requires the spouse be notified in writing when such as election is made. The letter will be sent from the AFPC Contact Center whenever such an election occurs and will not disclose any percentages, or identify any additional beneficiaries.

Because of the changes, AFPC recommends every Airman go in to vMPF after July 1 and review his/her vRED. Once the vRED is reviewed, the Airman will need to submit the vRED to AFPC, even if there are not any changes, to change the date on the vRED and to show their vRED reflects their proper beneficiaries.

Contact the AFPC Contact Center at 800.616.3775 or the 301st Fighter Wing MPF at 817.782.6864 for additional information.

One and only Pitsenbarger

The Air Force Association announced the 2008 Pitsenbarger Award winner recently. Master Sgt. Ross Wood, AFA Fort Worth Chapter 272 president, presented the check during the June UTA to Staff Sgt. Sara Schiel, 457th Fighter Squadron. This award provides a onetime grant of \$500 to selected top Air Force enlisted personnel graduating from the Community College of the Air Force who plan on pursuing a baccalaureate degree. The 301st Fighter Wing was granted one AFA Pitsenbarger Award for their CCAF April 2008 graduating class based on a total of 20 CCAF graduates. (U.S. Air Force Photo/Tech. Sgt. Julie Briden-Garcia)
